

## The Mood Designs

Est 2012

ceramics imagined, designed and handcrafted in Ireland,  
inspired by Wild Atlantic Way.

Hi, we are Ella and Lukasz Szczerbak, based in County Mayo.

We make our ceramics with stoneware clay using slab building and slip casting techniques, decorating them with our signature mix of glaze and glass. Each piece is individually handmade, no two are the same. This year we are presenting additional colour to existing Sea range as well as adding few new wall decorations and brooches.
